4.2. Most important symptoms and effects, both acute and delayed

Overview

This compound has not been tested in its present form and is not expected to pose a significant health hazard when normal industrial hygiene practices are followed. Information provided on physical and health effects of this product is based on individual components. All ingredients are bound in the compound matrix, and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon processing; therefore, necessary precautions (mechanical, ventilation, respiratory protection, etc.) to protect employees must be assessed. Health Hazards Based on Raw Materials: Contact with heated material may cause burns.
Irritation: May cause eye, skin, respiratory and gastrointestinal irritation.
Primary Routes(s) of Exposure: Skin, Eyes, and Inhalation

5. Fire-fighting measures

5.1. Extinguishing media

Carbon Dioxide, Foam, Dry Chemical and Water Fog.

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Oxides of CO_x, NO_x, SO_x.
Oxides of Zinc, undetermined aliphatic fragments, toxic oxides and fumes of components. Unburned hydrocarbons and trace oxides, acetic acid.

5.3. Advice for fire-fighters

Fire involving rubber is accompanied by the evolution of an acrid black smoke. A self-contained breathing apparatus (SCBA) in positive pressure mode and full fire fighting protective gear should be worn when fighting fires.

ERG Guide No. ----

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions

Respiratory

Use NIOSH/MSHA approved respirator, following manufacturer's recommendations when concentrations exceed permissible exposure limits. Protective safety glasses recommended.

Eyes

Skin

Long sleeved shirt and long pants. Impervious gloves are recommended.

Engineering Controls

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Other Work Practices

Safety showers and eye wash stations should be provided in areas where this product is used. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
